with community agitation and various criminal activities, they are a most wealthy (union dues from more than TWO MILLION members!) and politically powerful lobby in DC. They are currently the fastest-growing labor union in the world. SEIU is focused on organizing workers in three sectors: health care (over half of members work in the health care field), including hospital, home care and nursing home workers; public services (local and state government employees); and property services (including janitors, security officers and food service workers). Is it any mystery that the push for "ObamaCare" has been so very strong, considering this group's very persistent strongarm methods??? And now our "public schools" (Government Indoctrination Centers) are beginning to serve DINNER, as well as breakfast and lunch! Of course, this means many more hours for this group's food service workers!
